

Inspire. Prepare. Support.

How to download the SME Events+ mobile app:

- Download the SME Events+ mobile app in the App Store or Google Play Store. Search for SME Events+ or use the QR code.
- Login using the same email address that you used to register for Bright Minds. **Please make sure you are using a unique email address that has not been used to register anyone else**, or you will not be able to access the mobile app.
- Once you type in your unique email address that you are registered under, you will be sent a Magic Link to that email address. When you click on the link you will be able to create your password.
 - Please Note: Initially, you will be sent to the web application on your browser. For the best user experience, we recommend closing the web browser and go to the mobile app when you access the Bright Minds Student Summit. Once you are in, click on the Bright Minds Student Summit button to begin.
